Resource Efficient and Cleaner Production (RECP) network meeting to advance resource efficiency in Georgia

30 October 2023, 15:00-16:30, online

Meeting objectives, expected outputs and outcomes

The meeting is organized based on the specific interest of the RECP Network members to receive first-hand, practical information on the implementation of the RECP measures in Demonstration Companies and RECP Clubs Companies in the period 2014-2023. The participants will discuss both the results achieved from the implementation of the RECP measures as well as the most typical difficulties and challenges faced in the course of the implementation process.

Participants

The meeting will gather about 30-35 participants from the RECP Clubs and RECP Demonstration Companies, RECP Experts, representatives from the companies engaged in the project, the representatives of the RECP companies from a previous EU-funded programme, EaP GREEN, and the representatives of SMEs interested in the practical implementation of the RECP methodology in the country.

Practical Information

The event will be held virtually on 30 October 2023, from 15:00 to 16:30 (Tbilisi time).

Background

The national RECP network has been formed upon the completion of the RECP training and coaching for RECP Clubs companies and Georgian experts. Its purpose is to strengthen the national capacity and collaboration on RECP in the country. The Network was envisioned as platform to help expand knowledge and build capacity by leveraging relationships between professionals, enhancing communication and knowledge sharing among experts, business owners, and stakeholders interested in RECP in Georgia.

For the organization of regular RECP Network meetings (2-3 times per year) to discuss the most interesting issues/topics, to explore local needs, to share national good practice and approaches, to introduce new/updated legislative obligations or standards, to discuss the most topical issues affecting the business sector, etc. a survey among RECP demonstration and RECP Clubs' member companies for the identification and prioritization of topics of interest for the companies was held.

About EU4Environment

The European Union (EU) funded EU4Environment Action aims to help the EU's Eastern Partnership countries preserve their natural capital and increase people's environmental well-being by supporting environment-related action, demonstrating and unlocking opportunities for greener growth, and setting mechanisms to better manage environmental risks and impacts. It is implemented by five partner organisations: OECD, UNECE, UNEP, UNIDO and the World Bank over the 2019-2024 period, with a budget of EUR 20 million.
